1x Left rail

1x Right rail

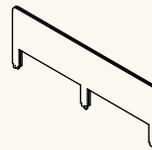

1x Long middle rail

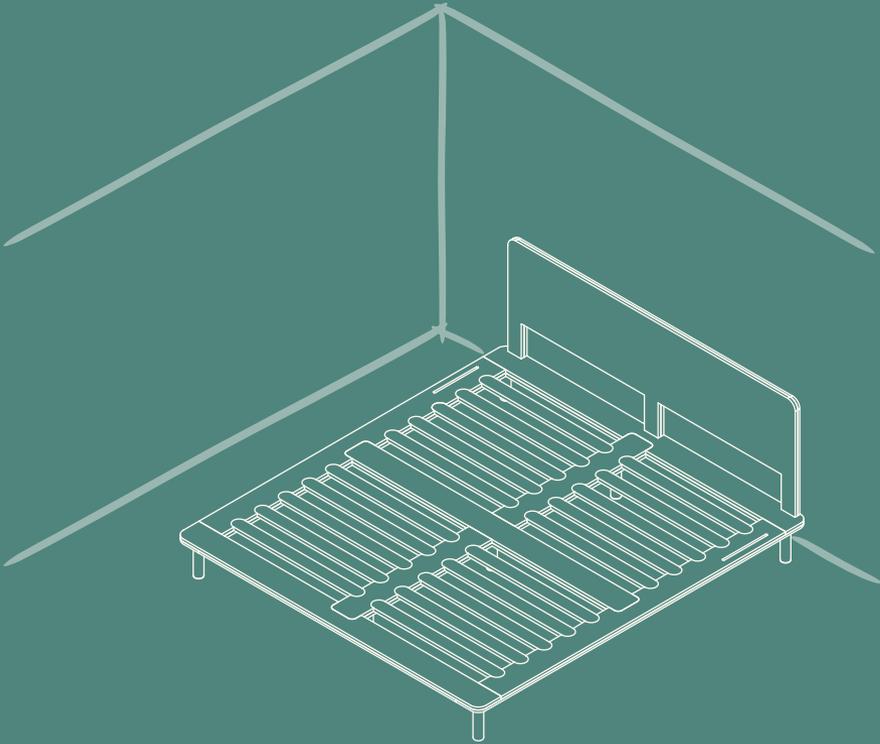

Box 4/4

1x Headboard

Before you begin, make sure to choose a spot for your timber bed frame against a wall.

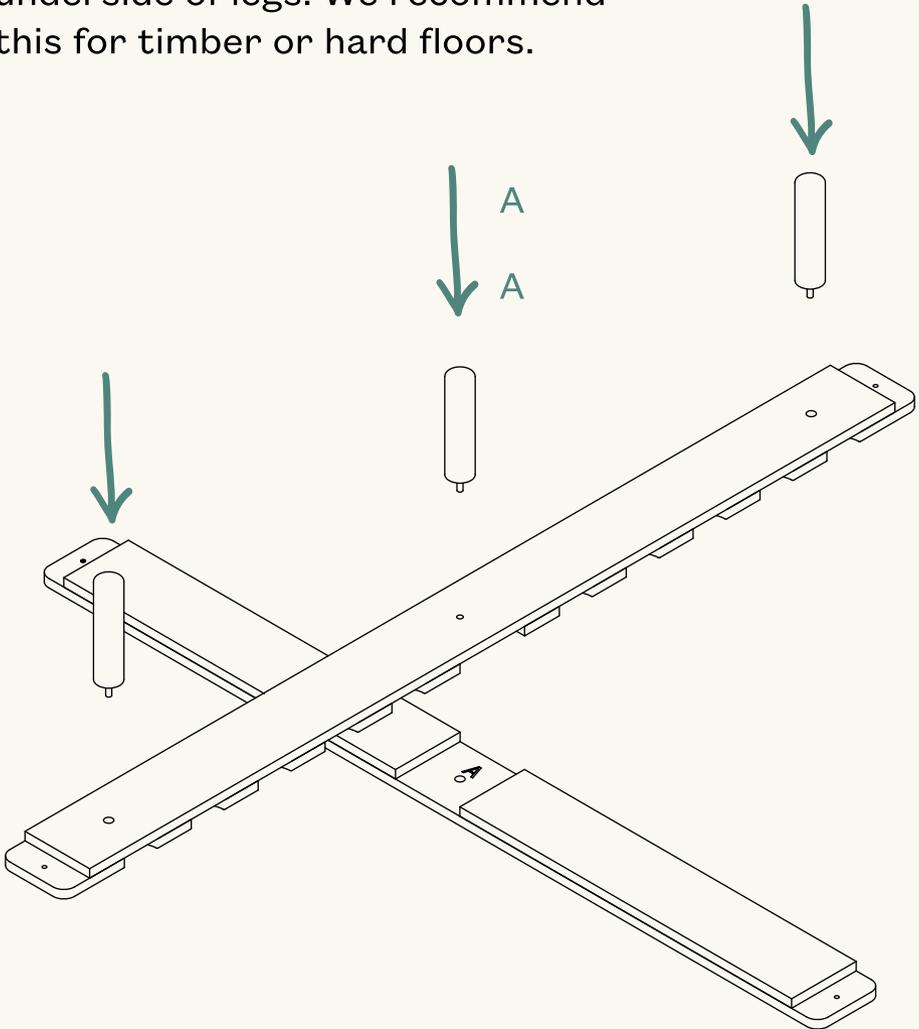

Please contact our customer experience team if you cannot place your bed frame against a wall.

1.

Line up middle rails (A-A) and screw 3x legs in. Set aside.

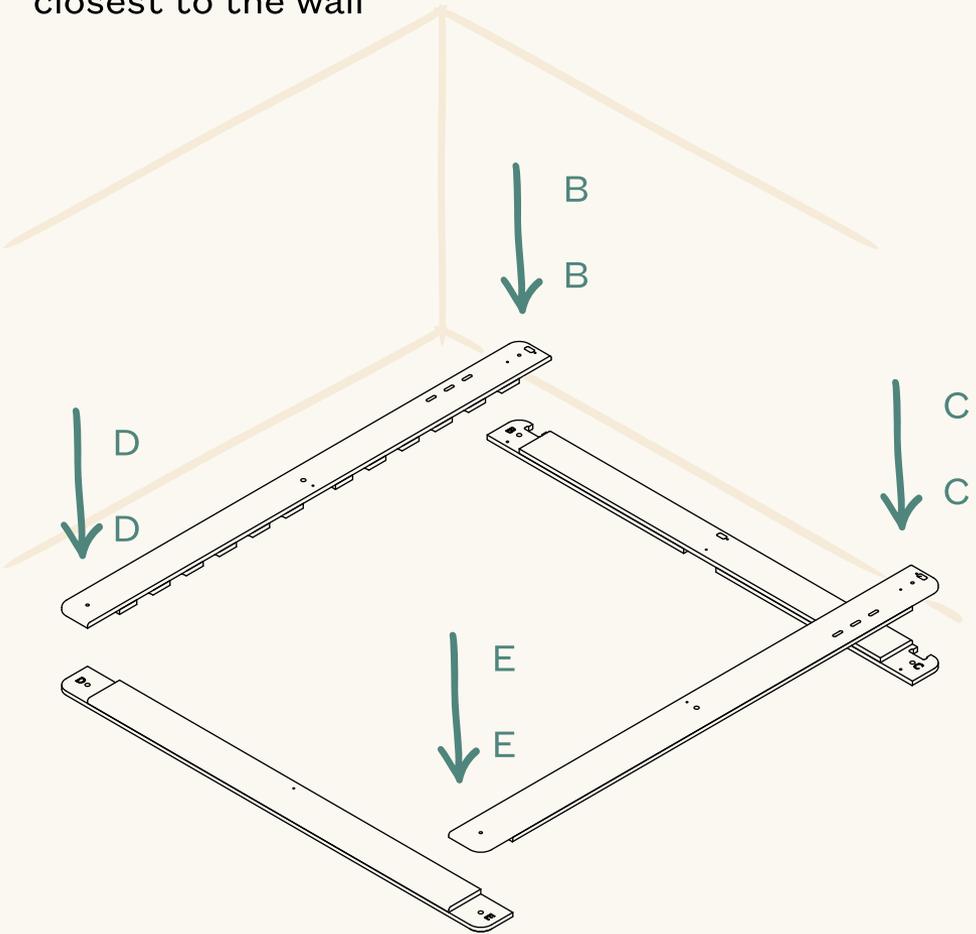

Optional: Stick thin felt pads onto underside of legs. We recommend this for timber or hard floors.

2.

Line up top (B-C), bottom (D-E), and side rails (B-D, C-E) together.

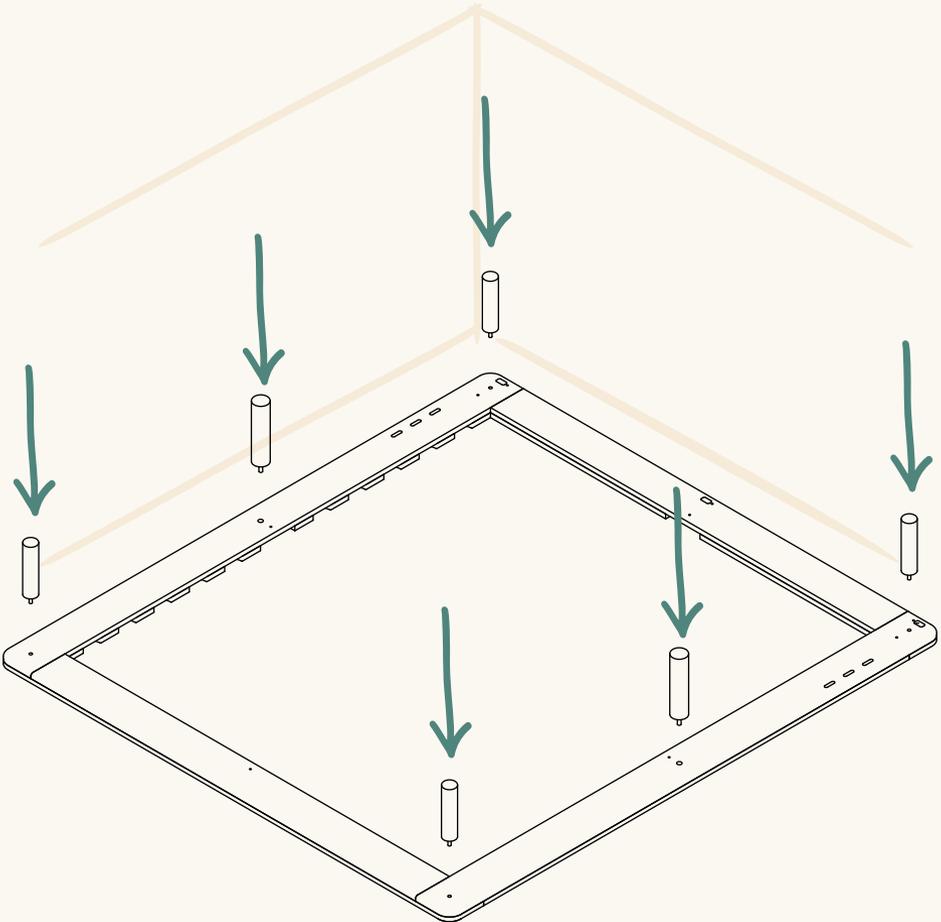

Match the letters and have the top rail closest to the wall

3.

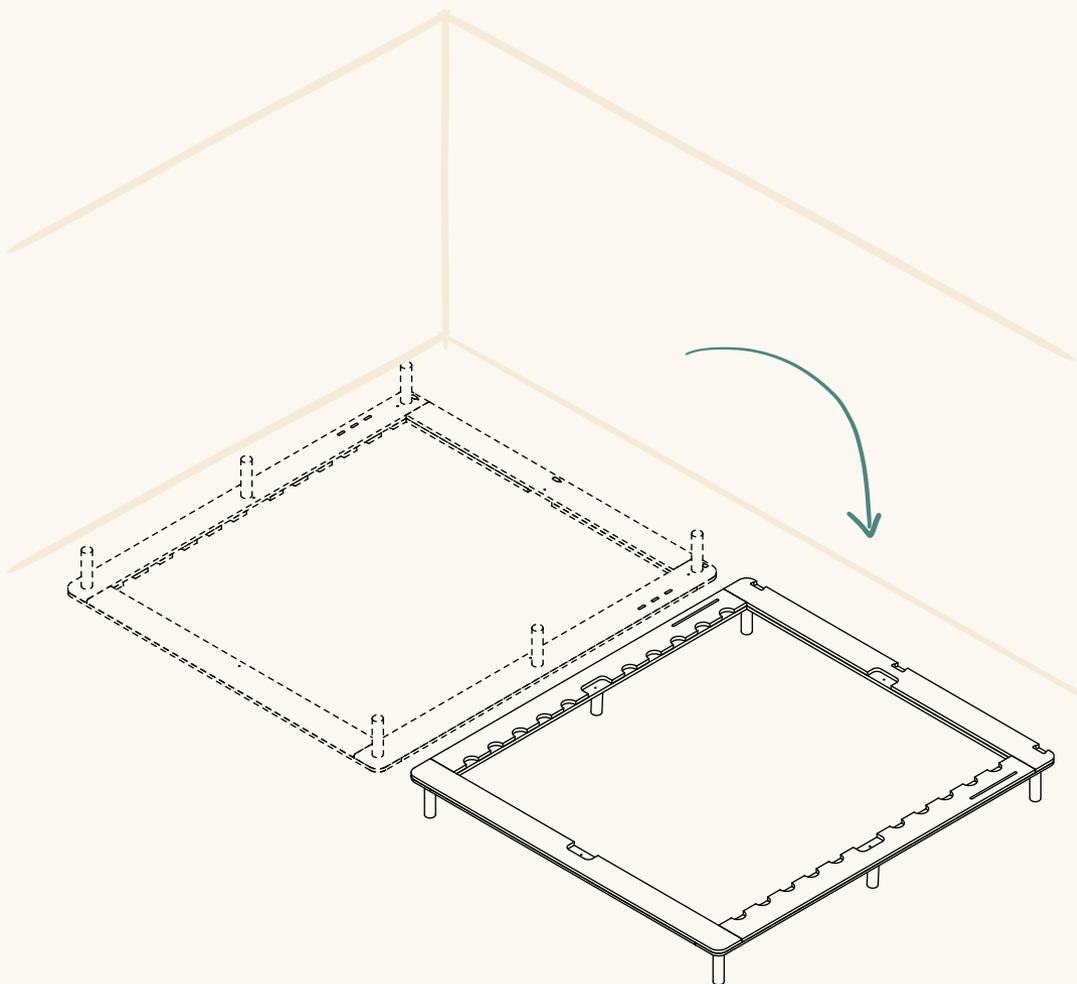

Screw 6x legs into corners and sides to secure together.

Optional: Stick thin felt pads onto underside of legs. We recommend this for timber or hard floors.

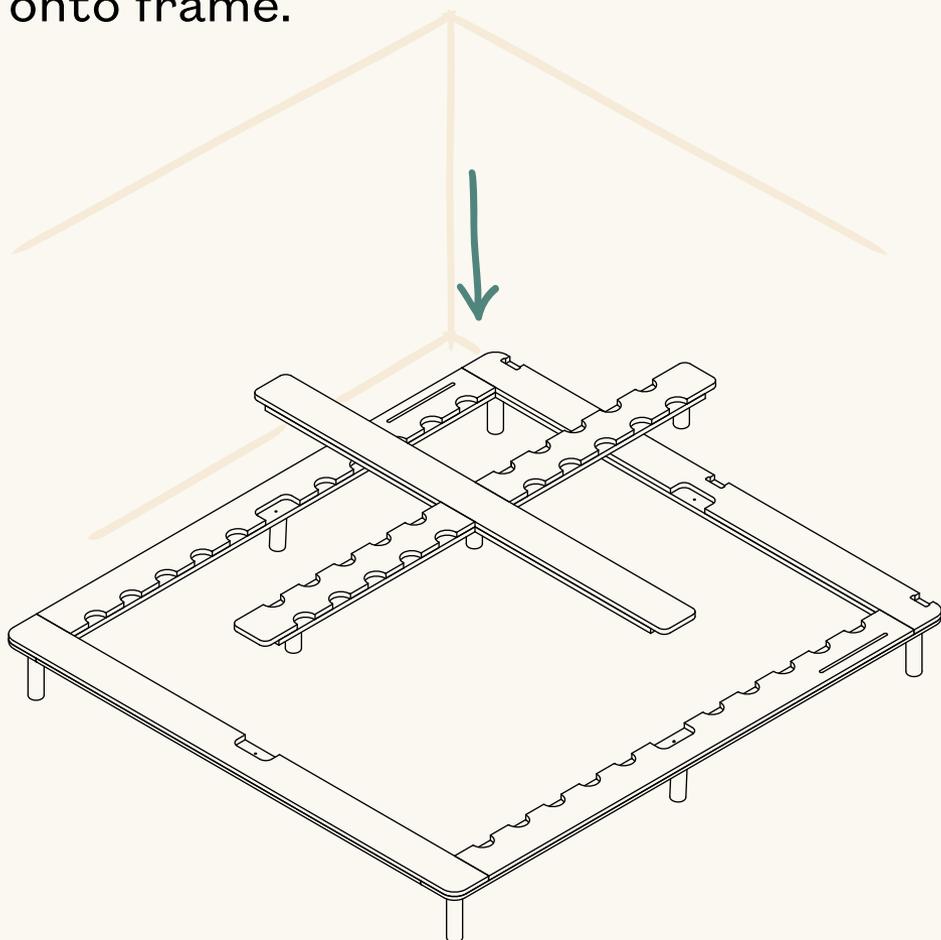

4.

Flip frame upright.

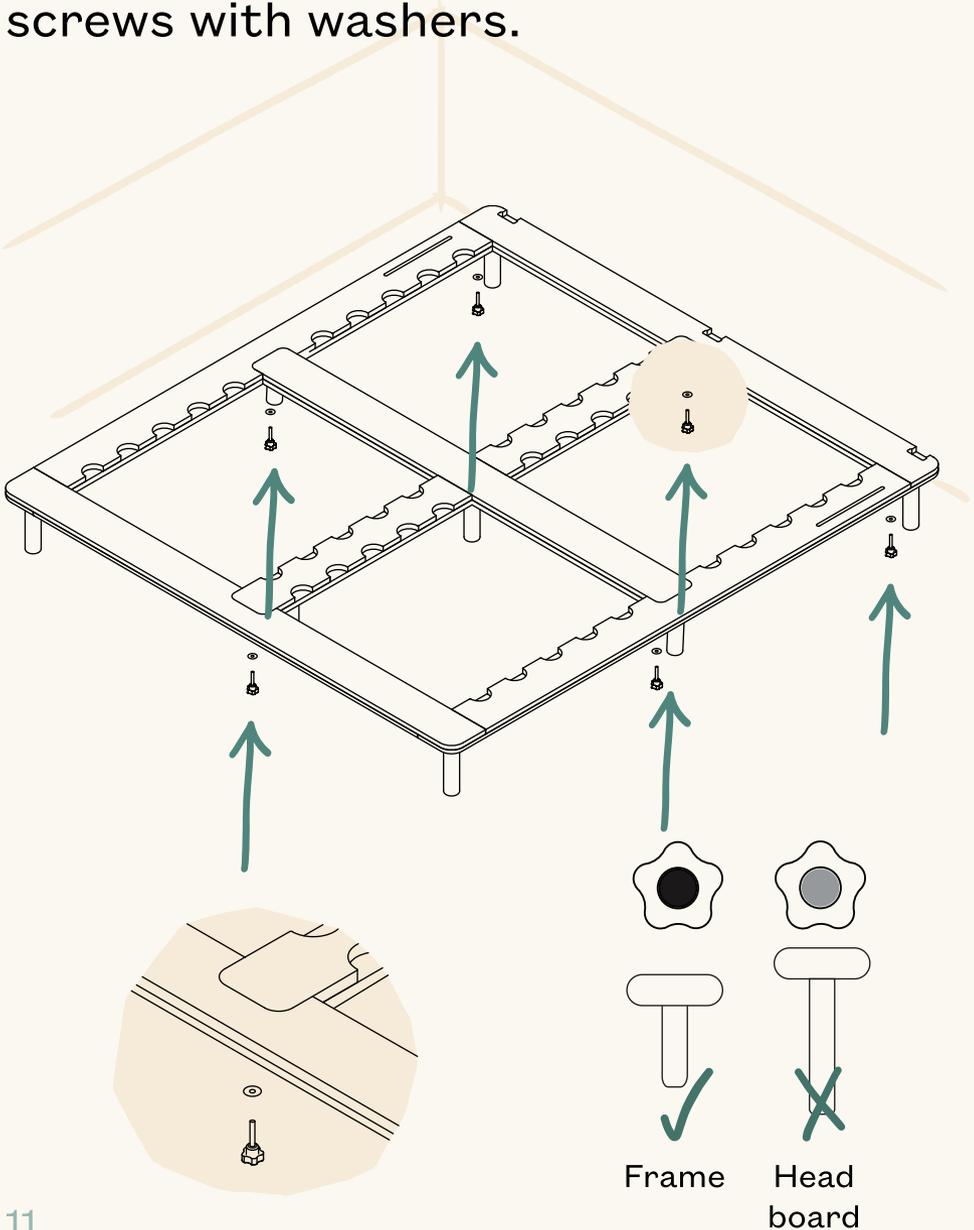

5.

Place previously assembled section onto frame.

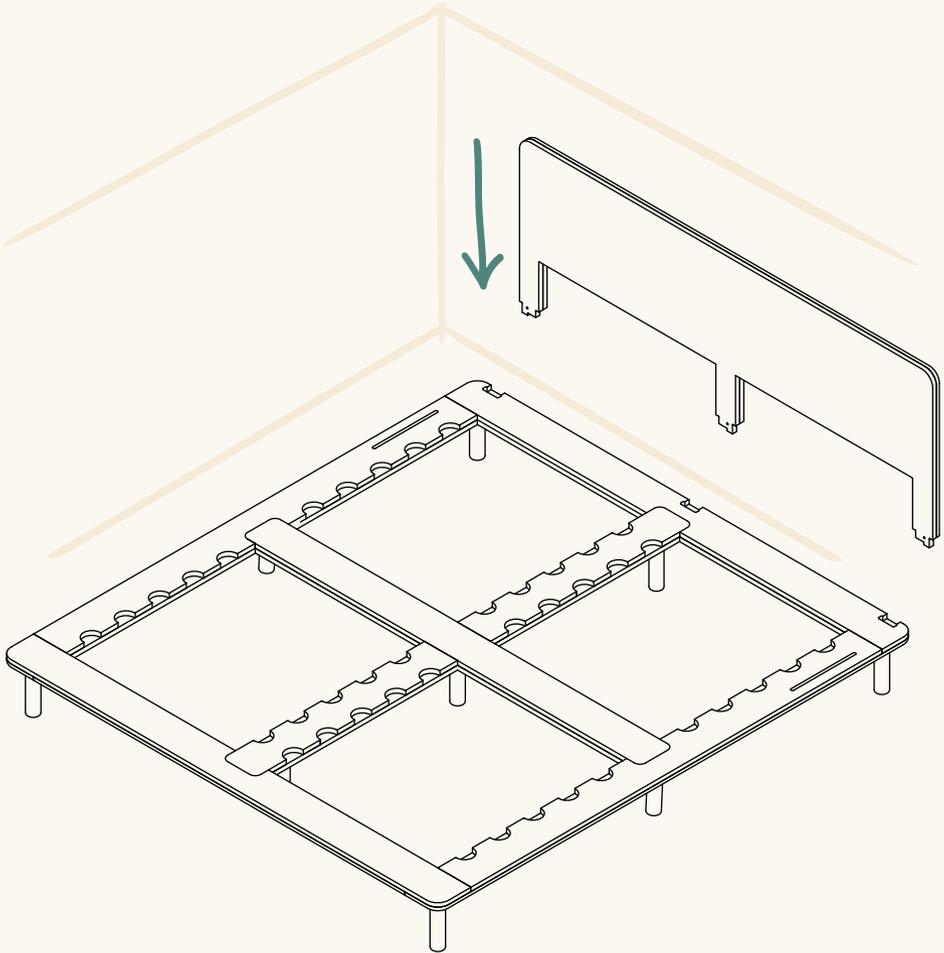

6.

Secure together using 6x frame hand screws with washers.

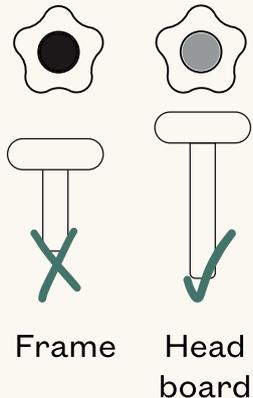

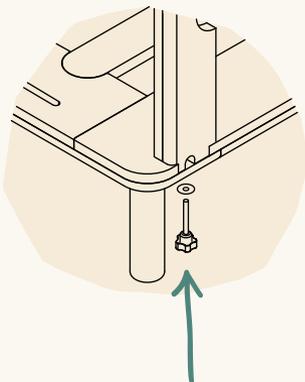

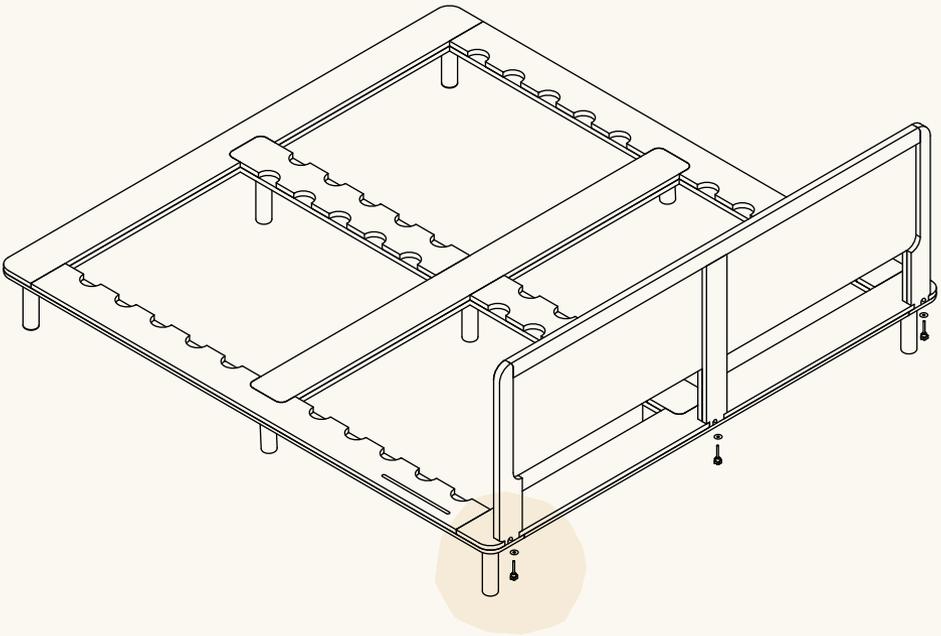

7.

Place headboard onto frame.

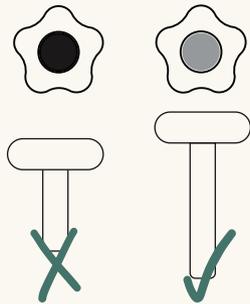

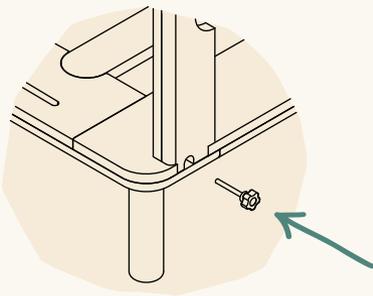

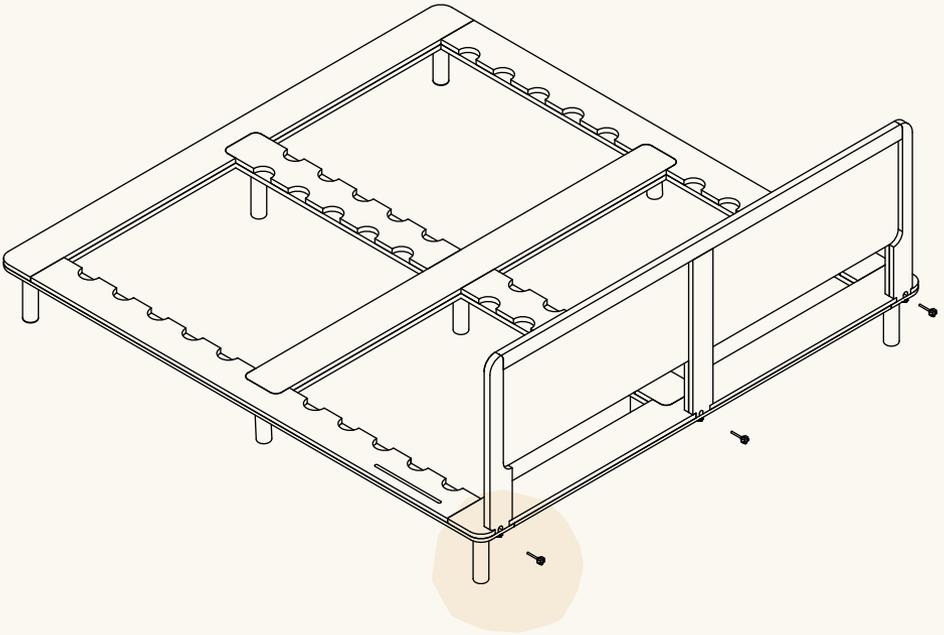

8.

Secure bottom of headboard using 3x washers and headboard hand screws.

9.

Secure back of headboard using 3x headboard hand screws.

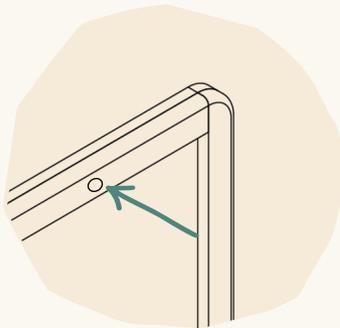

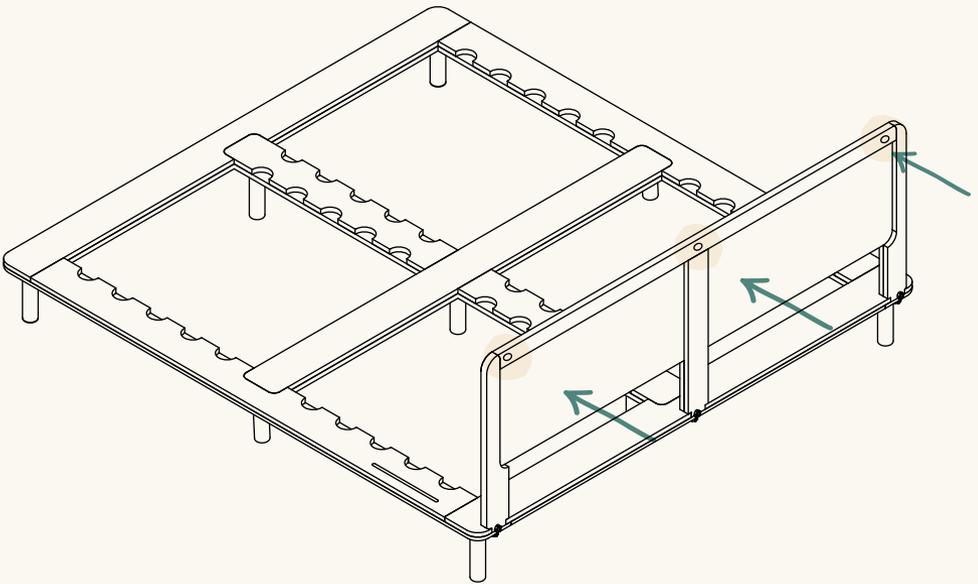

Frame

Head board

10.

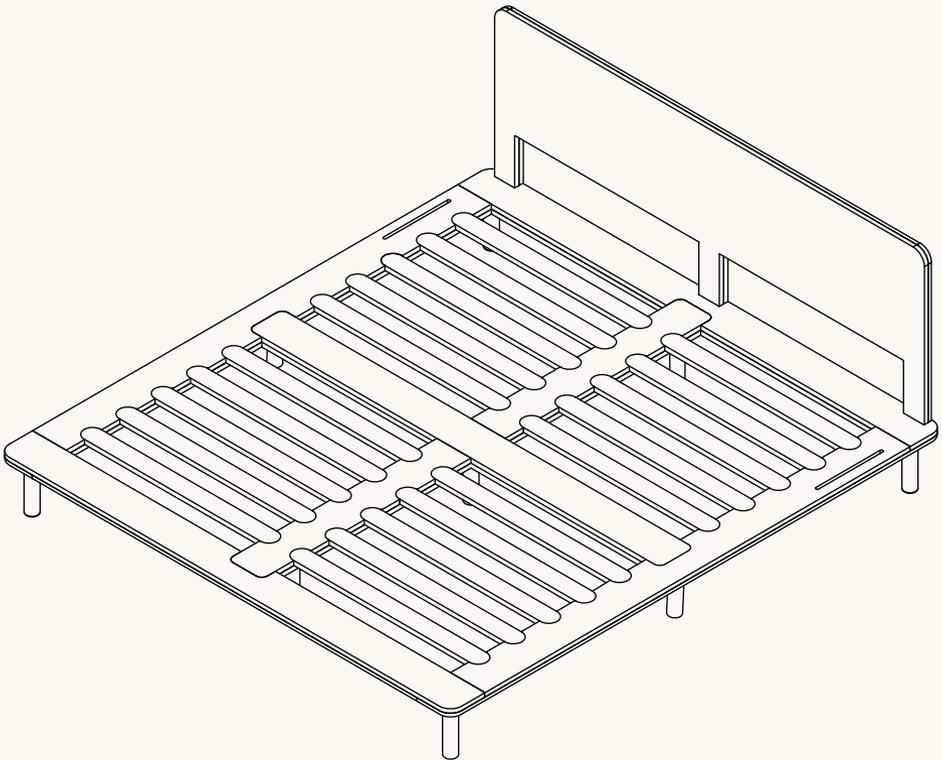

Stick 3x thick felt pads to the back side of the headboard to protect your wall.

11.

Place slats on and enjoy!

Caution: Avoid standing on slats.

Pretty simple living.
